Sun, wind and water - a way to relax, a way of living and enjoying life. **Catch & Relax** wants to put these feelings across to its guests...

Our motto is that our guests shall get to experience the best of Stockholm's wonderful archipelago in close, an experience a bit out of the ordinary.

To fish in the Stockholm Archipelago is so much more than just fishing, it is an opportunity to experience the nature in close, to learn a bit about how the fish is living and how to catch it. This is an outdoor activity, not so dependent of the weather, an activity which is relaxing and at the same time, full of action.

We have put a lot of effort in order to have absolute top quality equipment and the latest technique there is on the market. Our boats are built for its purpose, large, stabil and equiped for fishing. Our guides have all education required. We fish as long as the waters are open and its is not too cold.

Combine your conference with some hours of fishing or round off your fishing day with a nice dinner in the archipelago. We help you with all necessary contacts.

One telephone call is needed, we take care of the rest. Our policy is to come back to you within short, most of the time the same day with a proposal.

Welcome to call us on +46-8-544 913 20, +46-70-509 61 11 or send us a message on info@catchrelax.se

what we can do for you...

Catch & Relax offers a total experience in the beautiful archipelago of Stockholm. Our core business is fishing and most of our arrangements are built around this together with other cooperation partners such as restaurants, hotels, conference establishments and other activity companies.

To fish is much more than just fishing, it's exploring nature, having a nice time with family, friends and colleagues.

We do belly boat fishing, spin- and flyfishing, vertical jigging and jerk. We fish for pike, perch, zander and sea trout.

Here comes some examples of what we can offer you!

Company arrangement - Fishing is a perfect activity for team building, a superb customer activity, an alternative to the more traditional conference. Invite your best customers for a day in the archipelago or arrange a fishing competition. End the day at a nice restaurant and after dinner we drive you home again.

City fishing - You do not have to go far to be able to fish very near to downtown Stockholm. Perfect when you do not have much time!

"After Work Fishing" - Our most popular arrangement. During the summer season the days are longer. The fishing is better in late afternoon and evening. Work nearly a full day, go fishing for a couple of hours. Sauna and dinner will be the perfect completion.

Family fishing - Take your son or daughter out for a lovely day together at sea. A unforgettable day, a mini vacation!

Fishing in the summer - warm, nice and comfortable. Enjoy the archipelago and its absolute beauty. Maybe a lunch on board or a grill dinner on the beach? We fish for zander, perch and pike.

Winter time - less people and less boats! You and nature! The air is more crisp and the fishing is better. We fish for pike and sea trout.

Boat excursions - To see Stockholm from the water side is an absolute must when you are in Stockholm. You choose where to go. Also, going from one place to another in a very comfortable way is something many people choose to do.

"Drop In" Fishing - meet new friends

A different way to go out on a guided fishing tour. The first Sunday in every month. We go out if we have three people signed up. Starting at 9 am in Vaxholm (45 minutes north of Stockholm) and we ending around 5 pm.

Our Boats Fishing

320 Open - our flagship! Nearly 11 meters long, 3,5 tonnes and 700 horsepower. Takes up to 7 people fishing, 12 people for boating only. It takes our guests, in a very comfortable and safe way, through the archipelago to all our favourite spots. Toilet on board.

Polar 2700 CC - also a large fishing boat which takes up to 7 people fishing, 8 persons for boating only. A bit more than 9 meters and 3,2 meters wide. Very comfortable and spacey. 300 horse-power, safe, quiet, toilette onboard.

Sea Pro 24 - takes up to 5 people fishing, 8 people for boating. Perfect to get very close to where you want to fish, extreme large spaces to fish from. Perfect for fly fishing. 7,21*2,69 meters, The boat has a 4-stroke engine with 225 horse-power, which makes almost no sound at all. While fishing, we use our electrical engine.

how to end the day...

There are many ways to end the day. One thing is for sure, you will definitely get hungry when you are at sea.

“After Fishing” - end the fishing day with something good to drink and eat, before moving to the next spot. If you have had a competition this will be the perfect time to give out the prizes.

Sauna - what is more relaxing?

Restaurant - we know where to go and we have tried them all.

Grill Dinner on a beach or rock - May to August is the perfect time for this.

Villa HelleBo - is situated beautifully on the island Hästholmen. It was built in 1904 and has been called the pearl of the archipelago and has a beautiful view over the Castle of Vaxholm. Today it is privately owned and welcome smaller company groups up to 12 persons, always with private chef.

When do we operate?

We go fishing literally as long as the water is open. Usually snow and minus degrees don't keep us away from fishing. During the colder part of the year the tours tend to be shorter.

You should be comfortably dressed, we recommend good and warm shoes!

The tours always include all the fishing equipment you need, warm overalls or life jackets - depending on season. Included are cold and hot drinks, buns and snacks.

We will help you complete your arrangement in the archipelago. We are based in Vaxholm, which is situated 45 minutes north of Stockholm, both by car and by boat. We can pick you up either in Vaxholm or down town Stockholm or wherever you wish!
